choose & TURN

scegli & AVVITA

CHOOSE

CHOOSE THE DIFFUSER: hand made glass diffusers obtained with different processes, in different shapes and colors.

CHOOSE THE STRUCTURE: aluminum frames liquid finish in different colors. Available in suspension, wall, ceiling, table, bedside table and floor versions.

SCEGLI

SCEGLI IL DIFFUSORE*: diffusori in vetro realizzati con diverse lavorazioni, in differenti forme e colori.*

SCEGLI LA STRUTTURA*: montature in alluminio con finitura a liquido in diversi colori. Disponibili nelle versioni da sospensione, parete, soffitto, tavolo, comodino e terra.*

FINALLY, *with* a **simple** ACTION

E poi con un semplice gesto

TURN **your LAMP**

Avvita la tua lampada

choose & TURN

scegli & AVVITA

the **ARTISAN TRADITION** meets **innovation**

La tradizione artigianale incontra l'innovazione

The "Choose and Turn" project proposes lamps collections of different designs, which can be coordinated and interchanged thanks to a screw fastening system, specially designed to make the connection between structure and diffuser, easier.
The natural elegance of glass merges in this way, by an innovative system, with the essentiality of the brushed metal structures in bright and captivating colors, leaving full freedom in the creation of your own lamp, with multiple combinations.

All the parts in the catalogue, lend to modularity with the same model or hybrid combining different diffusers.

Il progetto "Scegli e Avvita" propone collezioni di lampade di diverso design, coordinabili e interscambiabili grazie a un sistema di aggancio a vite, studiato appositamente per rendere semplice l'attacco tra struttura e diffusore.
L'eleganza naturale del vetro si fonde così, in maniera innovativa, con l'essenzialità delle strutture in metallo spazzolato dai colori luminosi e accattivanti lasciando piena libertà nel realizzare la propria lampada in molteplici abbinamenti e combinazioni.

Un sistema di vetri, nella tipica tendenza Vintage di Light4, che si presta alla modularità, alle combinazioni e agli abbinamenti di tutte le collezioni.

OGNI LAVORAZIONE **CREA** IL SUO **effetto luminoso**

each technique creates its own luminous effect

Il vetro della collezione BALL è soffiato a bocca da esperti maestri vetrai. Ogni vetro è unico ed è 100% made in Italy.
The glass diffuser of the BALL collection is blown by expert glass masters. Each glass is unique; each glass is 100% Made in Italy.

BALLOTON

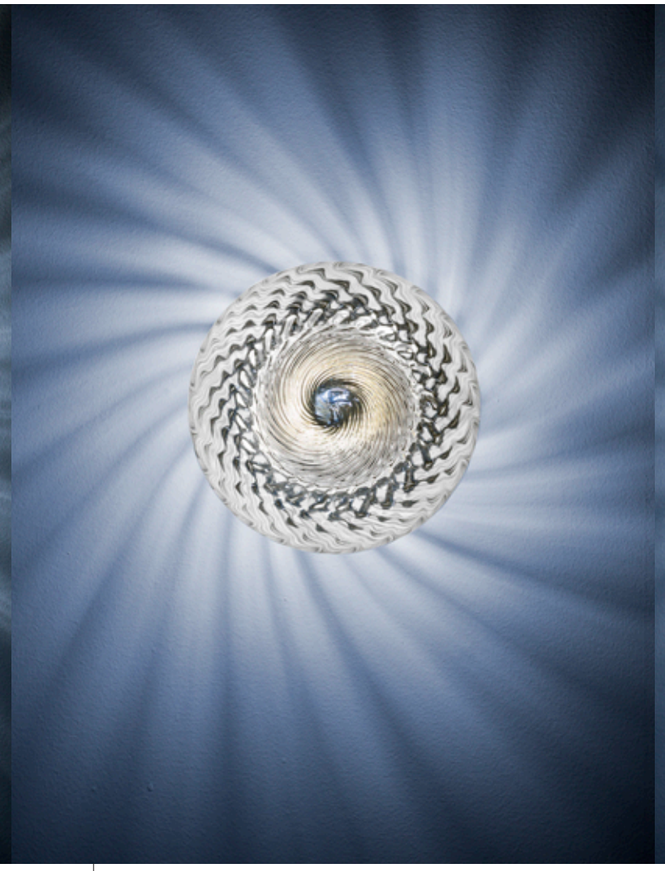
Technique used to obtain a particular optical effect. It is based on the use of a metal die, with the inner walls containing small square based pyramidal "spikes" which, when the glass is blown, result in a cross-relief pattern.

Tecnica usata per ottenere un particolare effetto ottico. Si basa sull'uso di uno stampo in metallo contenente all'interno delle punte a piccola piramide a base quadrata che, nella soffiatura, danno un effetto di rilievo incrociato.

RIGADIN

Thin ribbing obtained by blowing a glass object inside an open die, generally in bronze, which has grooves with a triangular cross-section.

Decoro ottenuto soffiando la pallina in uno stampo, in genere di bronzo, che porta delle scanalature a sezione triangolare. La pèa diventa costolata.



RIGADIN RITORTO

The piece thus becomes ribbed and can also be twisted inside the mold to produce rigadin ritorto (swirl or twisted ribbing).

Se il vetro viene anche ritorto durante la stampigliatura si ottiene il rigadin ritorto.

BULLICANTE

By casing a gather (péa) stamped in this way in a layer (coperta) of glass, an effect is obtained whereby hundreds of minute air bubbles are trapped between two layers of glass.

Ricoprendo una péa, stampata a balloton, con una coperta si ottiene l'effetto bullicante o a bolle, consistente in una miriade di piccolissime bolle d'aria rimaste intrappolate tra i due strati di vetro.
